

# Find your path to affordable, faith-based health care sharing

## One mission—many ways to share

Building on Biblical foundations. Redeeming health care. That's what we've been doing for thirty years. Samaritan Ministries was founded on Biblical values, establishing a model of care where members faithfully share one another's medical burdens both spiritually and financially. Based on feedback from Samaritan® members, REDEEM HealthShare Ministry was introduced as the next generation of health care sharing, offering comprehensive, affordable programs tailored to meet the needs of Christian families.
